**Notice of Proposed Revision to the
Pennsylvania State Implementation Plan for Ozone**

**Meeting the Post-1996 Rate of Progress Requirement Under the Clean Air Act for Bucks, Chester,
Delaware, Montgomery and Philadelphia Counties**

The Department of Environmental Resources proposes to submit, to the United States Environmental Protection Agency, an amendment of the Pennsylvania State Implementation Plan (SIP) for ozone to demonstrate how the Philadelphia nonattainment area will achieve the National Ambient Air Quality Standard for Ozone and actual emission reductions of at least 3 percent per year between 1996 and 2005. The SIP describes how growth in emissions will be offset. The documentation provides a description of ozone modeling being conducted to develop target levels of emissions necessary to achieve the ozone standard. The Philadelphia nonattainment area includes portions of Pennsylvania, New Jersey, Delaware and Maryland. This SIP amendment covers the Counties of Philadelphia, Bucks, Chester, Delaware and Montgomery. The public hearing will provide the public with an opportunity to review and comment on the amendment.
